

Citywide Underground Transmission Cable Replacement Project SCATTERGOOD – AIRPORT CIRCUITS

Construction Notice - UPDATE

LADWP completed a portion of this project that began on Monday, November 26, 2018. A temporary halt on construction activity is in place to accommodate construction activity being performed on behalf of Los Angeles World Airports. LADWP anticipates the remainder of work will commence in October 2019 and will be completed by the end of January 2020. Construction hours will remain from 7 am – 6 pm, Monday through Saturday. LADWP will remove old and install new underground transmission cables to provide reliable power to the community. This portion of underground work will start at Hyperion Terminal Tower located on the corner of Imperial Highway and Pershing Dr. The project alignment then runs east on Imperial Highway, north on Aviation Blvd. into LADWP's Receiving Station N at Isis Ave. Work trucks will be parked over maintenance holes near these locations.

Traffic and parking may be partially impacted along these streets. Access to businesses will remain open. Alternate routes and extra travel time recommended.
