

Hyperion Water Reclamation Plant Duct Work – Odor Control Facility

Background

LA Sanitation & Environment continues its work on the new odor control facility at the Hyperion Water Reclamation Plant to reduce emissions and odor.

Summary

This phase of work requires tie-ins to the ducts to the new facility and will require a shut-down of the existing odor control facility during this work. The work will begin at 6:00 a.m. and potentially conclude sooner than 5:00 p.m. There is a potential for fugitive emissions and odors during the shut-down. As soon as the tie-in work is complete, the facility will be brought back online.

Time and Location

When: Monday, November 30, 2020
6:00 a.m. to 5:00 p.m.

Where: Hyperion Water Reclamation Plant

Additional Construction Information

- You may detect some odors during construction; should the work conclude before 5:00 p.m., the odor control facility will be brought back online
- After 5:00 p.m. and weekends, contact the LA Sanitation & Environment Customer Care Center at (800) 773-2489
