Hello.

To allow the sale of distilled spirits for off-site consumption at the existing 7-11 store at 100 West Imperial Ave., El Segundo Blvd. is, to put it bluntly, an absolutely awful idea. I own a condo unit to the south of 7-11. It is not only an extremely bad idea for those of us who live close by, but, even more importantly, a horrible idea for all of the city of El Segundo. This will lead to:

- more drunken clientele resulting in an increase in civil disobedience and crime;
- more trash near and around "said" establishment, followed by more trash down Main Street into Downtown El Segundo;
- more problems involving parking in possibly the worst parking lot situation in all El Segundo and the resulting accidents that undoubtedly will follow with the sale of harder alcohol products;
- an increase in drunk driving offenders.

Thank you for your consideration in this matter,

A very concerned citizen
